

D Form: Professional Reference and Clinical Experience

FOR UBC'S INTERNATIONALLY EDUCATED MIDWIVES BRIDGING PROGRAM

BACKGROUND INFORMATION

The applicant indicated below in Part I has applied to participate in the Internationally Educated Midwives Bridging Program (IEMBP) with an intention of registering to practice midwifery in Canada. This pre-registration bridging program is designed to assist internationally-educated midwives to “bridge” or address gaps in their knowledge or skills as they apply to midwifery practice in Canada.

The IEMBP assessors will use the information in this form when they are deciding whether this applicant is eligible for entry to the IEMBP. One of the ways to qualify for the IEMBP includes proof of past or current registration as a midwife in a regulated jurisdiction. Also, IEMBP applicants must provide evidence of their identity and proof that they are ethical, safe and responsible practitioners.

If this applicant completes the IEMBP and applies for midwifery registration in Canada, the midwifery regulatory organization (the organization that regulates the profession of midwifery in the public interest) in that province or territory will also use the information in this form to make their registration assessment decision. Sharing your knowledge of this applicant through completion of this form is important for making these assessments.

PART III – Clinical Experience (to be completed by referee)

We are aware that you may only be able to verify some of this applicant’s experience. The applicant will be submitting additional evidence of their midwifery experience. In this form, **please only verify births that you have seen or directly supervised, or for which you have access to related records at your institution or practice.** Please fully complete Part II below. Attach extra pages, if necessary.

Please be as specific as possible with dates. If you can verify clinical experience from several non-consecutive time periods, please list them separately.

For example: May 2001 - April 2002 St. Andrew’s Hospital
 Sept 2003 - March 2004 St. Andrew’s Hospital

The births that I am verifying took place in the following date(s) and location(s):		
From (month/year)	To (month/year)	Practice or Clinical Site Name and Location

Part of the IEMBP’s assessment of clinical practice is to determine the applicant’s overall amount of clinical experience and also the applicant’s recent or current experience. In order to assist this determination please complete the following tables:

<p><u>Primary/Principal Midwife</u> <i>The primary (principal) midwife is a midwife with complete, non-delegated, responsibility for the care of a woman and her newborn. The primary midwife is normally responsible for managing the labour and delivery and for the immediate care of the newborn. In cases where complications arise, the primary midwife makes the decision to transfer care, coordinates the transfer, collaborates with the health professional to whom she has referred her client, and provides supportive care after the transfer occurs. Supervised student midwives who act in the role of primary midwife are also included in this definition.</i></p> <p><u>Other Midwife</u> <i>The other midwife is a midwife acting in a role other than Primary Midwife.</i></p> <p><u>Continuity of Care</u> <i>Applicants have provided continuity of care to a single client, if they have met with the client prior to the birth, attended the birth and had at least one visit post partum.</i></p> <p><u>Out-of-hospital birth</u> <i>A birth conducted by a midwife in a setting without on-site surgical (cesarean section) and/or anesthetic (epidural) capabilities. Such sites may include homes, birth centres, nursing stations and some hospitals.</i></p>
